Delegates to the National Temperance Convention are constantly arriving in the city. Many come from Prince Edward Island, Halifax, Nova Scotia and other distant parts. About thirty came in last night, who are divided between the Gibson House and Reid's Hotel.

Three men got into Wm. Hoffshutler's saloon through the transom, at the corner of Fifth and Smith streets last night. They only succeeded taking three bottles of wine and a box of cigars. They tried the money drawer, but did not have time to rifle it before the officers frightened them off. No arrests.

Several weeks ago the foreman of Mosler's safe and lock factory broke his leg and was compelled to cease work. The company appointed John Schoell to the vacant position, but the workmen don't appear to be satisfied with him and yesterday about one hundred and fifty of them struck for a new boss.

The cost is to be in the neighborhood of \$60,000, nearly all of which has already been raised.

The Cuvier Club liberated to-day in the vicinity of the city, two hundred Mesquits (Coturnix communis), and it is earnestly hoped that all persons will protect, and do all in their power to encourage these desirable and new additions to our avian fauna. This is the first of a series of importations of game-birds that the Club proposes to liberate in this locality. The Club will also continue introducing the desirable species of fish into our depopulated streams, for the public good.

THE WONDERFUL Effects of Sulphur

In the Cure of Skin Disease

Has Attracted Much Attention of Late

In This Country and in the Old World.

Physicians are Strongly of the Opinion that Its Curative Powers in a Large and Troublesome Class of Skin Disease.

Have Not Yet Been Fully Developed.

And that its local use is the best and surest mode of using it, for in that way it comes directly in contact with the disease, and, at the same time, comes equally in contact with the skin, which is such a wonderful absorbent that the Sulphur, rubbed on the skin, will be seen in a few hours in the breath, by breathing on silver, making it dark, forming a sulphuret of silver, and soon pervades the whole body and finds out the blood poisons that produce and keep up these loathsome skin diseases, and then there neutralizes it in the blood and destroys its effects in the skin. All such diseases as Eczema, Tetter, Ringworm, Lichen, Acne, Pimples, Blackheads, rough and dry scaly skin diseases, must all fade before its use like snow in the sunshine. But the question arises, Why can't I use sulphur ointment? No, no; by no means. But you can use GLENN'S SULPHUR SOAP, which not only cleanses the skin but cures your diseases and at the same time it is itself pure and as nice as any toilet soap you can get. It is really a wonderful and valuable combination of Sulphur and the cleansing oils, making the skin soft and smooth and keeping the hands free from cracks and chaps, and rendering the complexion fair and beautiful. It should be used for cleansing purposes, thereby preventing all diseases of the skin, and in disinfecting clothes used by the sick, it has no equal. See that "C. N. CRITTENTON" is printed on each packet, without which none is genuine. Sold by druggists and fancy goods dealers at 25c; 5 cakes, 60c. Sent by mail on receipt of price and 5c extra for each cake. C. N. CRITTENTON, Sole Proprietor, 115 Fulton street, New York.

Mr. James Brown of our county, has requested us to tender you his grateful acknowledgments for the great benefit his wife received from the use of your IRON TONIC.
